

**Lecture Course in the Integrated Research Training Group (IRTG)
of the SFB 676 "Particles, Strings and the Early Universe"**

Summer Term 2018

Presentation Skills for Mathematicians

S. Lentner

Course Description:

In this workshop we will train different aspects of presentations in a scientific environment. The main focus will be practical exercises on introduction and summary of results in a scientific talk, but also presentation of oneself in an job interview scenario and presentation of past or planned future research. The participants are invited to decide on further topics we will treat.

For physicists, the workshop is complemented by lectures of G. Moortgat-Pick at the Bahrenfeld campus.

Date and Place: Mon, 15:00 – 16:30, Seminar Room 1528, Geomatikum

Starting on: 9 April 2018
