

**Lecture Course in the Integrated Research Training Group (IRTG)
of the SFB 676 "Particles, Strings and the Early Universe"**

Summer Term 2018

Presentation of Scientific Results

G. Moortgat-Pick

Course Description:

The course aims at Master's and PhD-students as well as Postdocs and discusses techniques and rules for the presentation of scientific results. The first two sessions are lectures about:

- April 9 : How to give a scientific physics talk?
- April 16: Body language and physical presence (provided by Elena Kaufman)

In the following sessions the participants have the opportunity to give a 25-minute conference-type-talk with a subsequent discussion about the presentation.

The second part of the course consists of a lecture about

- How to write a scientific physics paper?

and some examples will be discussed.

The third part of the seminar opens with a lecture on the topic:

- How to do a science job interview?

and then simulates job interviews with the participants.

Date and Place: Mon, 15:00 – 16:30, SR 2, Building 2a, Bahrenfeld

Starting on: 9 April 2018
